Session of the House Devoted to

Consideration of District of Columbia Business.

Washington, May 11.—The senate to-day passed the bill authorizing the res-toration of lands within Fort Lewis, Colo., military reservation to the public Colo, miniary reservation and public domain. In reporting the bankruptcy bill from the judiciary committee, Mr. Teller stated that it favored the substitu-tion of the senate bankruptcy bill for that passed by the house. Mr. Mitchell, Republican, of Oregon, added that the committee favored the house

mitting foreign exhibitors at the Ten-nessee centennial exposition, to be held nessee centendal exposition, to be beld at Nashville, Tann, in 1897, to bring to this country foreign laborers from their respective countries, for the purpose of preparing for and making their exhibits, and allowing articles imported from carriers for the sole purpose of exhibition at said exposition, to be imported free of duty, under regulations prescribed by the secretary of the treasury.

The river and harbor bill was then aken up, the question being on the print of Arkansae, a member of the commerce committee, poke in opposition to the amendment, the dec are that this proposed expenditure of \$3,000,000 against the recommendation of government engineers and the print of the are of \$3,000,000 against the recumnendation of government engineers and

Mr. Barry said that the evidence howed the Southers Pacific Railroad Jempany could dictate terms for an entance to Santa Monics. He did not believe there was a man in the United States—save and except Q. P. Hunting-ton—who, in the face of the ropresentations of army engieers, would come to longress and ask it to give him \$3,000,000 to build a breakwater. Mis. When the Louisians senator spoke of the desirability of austaining the army engineers, Mr. Mitchell of Oregon interposed a query as to the condition that we have a concerning the Mississippi river improvements. The army engineers had predicted that the Easts improvement would be a failure and yet it was one of the great engineering accomplishments in the country.

The debate then branched off to the East improvements.

Washington, May 11.—The session of the house today was almost entirely devoted to the consideration of District of Columbia business. Bills were passed Columbia business. Bills were passed to authorize the secretary of the treasury to detail revenue cutters to enforce regulations to regattas; to grant the Benvar, Cripple Oreak and Southwestern rallroad a right of way through the South Platte and Plum Creek foreat reservation; to grant pipe lines right of way over the public domains in Colorado and Montana; to grant the Flagstaff and Canyon rallroad right of way through the Grand canyon and to extend the charter of the Dennieux and Northern rallroad. A preliminary conference report on the Indian appropriation bill was agreed to and the tillend Mr. Maddox of Georgia to his seat was confirmed.

KANSAN CETT, May 11.—The strike of forty-four fremen of the Armour Packing plant has assumed international proportions, and there is no telling where or how it will end. The attikers

proportions, and there is no telling where or how it will send. The atrikers have already petitioned the National Council of the Federation of Labor to declare an international beyoott against the Armour products, and it is the belief of labor men that the beyoott will be electared. This step was taken today at a meeting of the industrial council. The trouble between the firamen and the Armour Company was laid before the council yesterday, and was referred to its grievance committee for adjustment. The committee and Superintendent Tourflette of Armour's met to lay, and again submitted the men's demands. The company refused to receile from their position, and when the result was reported to the council the boyout was decided upon, and a full report of the grievance of the firemen was dispatched to the national headquarters at Indian apolis. The order of hoyout will be spread throughout the different local labor lodges. When formally issued the Armour company will, it is said, fight the boyout by an injunction in the lederal court.

of giving the sympathizers with the
strikers an opportunity to make a practical display of their feelings.

The state board of arbitration had a
two-house conference with the directors
of the street railway company today.
The captesentatives of the company declared that they had no new ground to
take. The company was operating its
cars and had nearly enough men to get
along. It has nesting to say to the
strikers fruches than to promise 250 of

As compared with the normal precipitation there was an excess shown at Eureka, Los Angeles, Red Binff and San Francisco, while deficiencies were resourced at Freeno, Sacramento and San Diego. The hallstorm of Tuneday, the 5th, in various portions of Sacramento and San Joseph 10, 100 and San Joaquin valleys did some daniage by knocking fruit from the trees.

The coal, cloudy and showery weather of the weak has been good for grain, grass and pattures, but detrimental to haying and also to the fruit crop, the rath especially damaging the ripening cherries, as they absorb the moisture, which soitens the skins, causing them to break or enck open, and therefore worthless for shipping, the ripe with the six of the state.

There is very great seed at present of lots of clear, sunshine and warm weather to bring forward the fruit and herry crops, the fruit being reported to be dropping badly for want of sunshine.

Vinayards so badly frostbitten in April Larse begun to put forward leaves and berries for the second crop.

The week's climate features have therefore been favorable for grain, grass and pastures, but very unfavorable for fruits, herries and for haying.

THE Examiner classes Fresident Gleveland as a patriot because of his recent extension of the civil service rules, whereby 30,000 places are brought under the operation of that law. The Expunsions to the President as one of high importance to the country's political welfare, but the patriotic feature of the action would have been a good deal more apparent had it been taken before the work of filling all the places with Democrath had been accomplished. Although done at the sievanth hour, the act will be approved by the people, but Gleveland might have gained much more credit for himself by inaugurating his reform at might have gained much more credit for himself by inaugurating his reform at the beginning of his term. He had the experience of a term in the Precidential clasic and knew as well then as he does now the necessity of taking these places out of politics. Why cid he not do it then if animated by patriotic impulses?

Only free trans contemporary that American labor has no faith in protection as a means of sustaining wages. Be that as it may, the fight of American workingmen at this time is for the right to work, as well as for living wages. They know that a tariff system which sends the work that should be done here to foreigners is depriving them of that right, and they want no more of that sort of thing. The free traders need not worry about the workingmen. They have not only learned on which side their bread is buttered, but they know where the bread and butter come

University Extension in Fresso.

The educational movement which the Los Angeles Timer is unging upon the citizens of Fresso and violatly is certainly a most commendable one. It seeks to extend to the many who are unable to attend the university practically the same advantages, establishing them in the home which is the aminary of all other institutions. Beakles outlining exhaustive courses of reading in academic and outversity work, it furnishes the best lastest and most valuable readings in tracte, professions and commerce. It is just the thing for those with have been depicted of a librar education, and will prove the means by which thousands will reach higher positions in all departments of life. The schoolboy, as well as the learned professor, will find it most satisfactory and valuable. Steps Taken to Erect a New House

of Worship.
The South Methodist church at the erner of L and Freeno streets has become too small for the congregation, or rather, the congregation lies outgrown the church, and for sometime the men-

tracter, the congregation has obsgrown the church, and for come time the members have had in contemplation the building of a tow house of worship which shall compare favorably in size and architecture with the best churches in this valley. When Dr. T. H. B. Anderson was pastor of the congregation he took steps towards the arction of a building, but he left for other listle before his efforts here had borne fruit. The work has again been taken up and it will now be pushed to completion. A portion of the funds for building will be raises by subscription among the members, and others who may feel disposed to contribute, and it is the purpose to raise \$2000 by mortaging the lots where the present church stands. An application was filed yesterday in the superior court for parmission to execute the mortagage with the Board of Church Extension of Louisville, Kentucky.

had the end kicked in by the strogging horses. A crowd quickly gathered and the wagon and horses were removed. One of the horses had lost an eye, but otherwise it could not be even that they had been injured. The wagon was not much the worse for the experience. It could not be learned whose team it was. The horses had been running a considerable distance, and had entered town by way of Belmont addition. Later in the day they were taken away.

THE BOSE STILLMAN COMPANY IN TROUBLE.

Actors-Their Statement of the Case.

There is trouble in the Rose Stillman company which played at the Barton during last week. Manager Charles Riggs and difficulties with members of his troupe, necessitating a sojourn in this city of a lew days. The company was booked for Merced last night, to-night and tomorrow and this engagement had to be cancelled yesterday.

Manager Riggs stated to a Republican

Manager Riggs stated to a Rescalary.

Manager Riggs stated to a Rescalaran reporter last evening that the trouble grew out of the institution to business on the part of three moulbers of the troupe, Messra Snow, Felt and Sutherland. They have failed to attend reheardsta, and consequently put up a poor show. The manager therefore discharged these yesterday morning and is awaiting men to fill their places.

Mr. Snow was seen by a reporter. He played leading roles in all the performs at the Barton, and it was the general opinion that he was by far the best actor in the company. Said he: "I have been with the company for four weeks and my engagement has been anything but pleasent. This morning we all got on the hotel bus for the train, which we were expecting to take for Merced. Just as we were about to start, Mr. Riggs came out from the dining ruom and told us that we were not going to Merced today. He further told us to be at the theater in half an hour.

Another curious find line been made t the yard at the Nevada prison. This the yard at the Nevada prison. This time it is the vertabrae of an elephant or mastedon, firmly encased in sandstone. It was uncovered only a few days ago. It was found at the same place the celebrated Carson prehistoric nontprints were discovered, under fifty-six leat of solid rock, which was quarried by the prisoners for building purposes. There were also found numerous bird and mastedon tracks in the sandstone.

Gampeoved the Beek.
Channeey M. Depow was telling a story about a police soperintendent in one of our inland cities. The man was a sharp, shrewd follow, who worked his way up from the ranks, with little or no education. A boy was arrested at the station by one of his officers, and in due time brought before the superIntendent. The officer said that the boy had run away from his home in the cast and was going west to fight Indians. The superintendent asked if any weapons had been found on the youthful desperado. The officer replied that the only thing found on him was a hook. The superintendent "Those didne novels are doing more to injure boys' characters and od circ them from home than anything class. Let me see it."

The officer landed that the book. He fook it and opened it. Then the said:

took it and opened it. Then he said:
"This is the Bible—ch? I have heard a lot about this book, but I have never read it. Watt until I see what it says." He began to read slowly and laborlous 1y. After 20 minutes' silence he took his feet down from the desk, placed his glosses back in the case, and said kindly to the boy, "Well, my little mon. I am sarprised that with a book of this kind in your possesion you should have decided to run away from home." Turning to the ufficer he said in a matter of fact way, "There are some really good things in it."—Now York Tribune.
